WORKING EXPERIENCES:

OOm Philippines, Inc. (Optimal Online Marketing)

Senior Web Developer: *March 2026 – August 2026*

- Developed WordPress and WooCommerce websites, building fully responsive pages from Figma mockups using custom code and page builders (Elementor, WPBakery, ACF).
- Collaborated on workflow improvements and researched reusable code solutions to improve team development standards.
- Provided technical assistance to team members to accelerate project delivery and ensure consistent quality standards.
- **Technical Leadership:** Led a training meeting on Advanced Custom Fields (ACF) and Elementor template creation to share knowledge and establish best practices for the team.

Mid Web Developer: *March 2024 – February 2026*

- Optimized CMS performance and SEO for WordPress, Shopify, and OpenCart websites, ensuring content accuracy and mobile responsiveness.
- Configured DNS and email services through cPanel, including domain setup, MX records, SPF, DKIM, DMARC, and email accounts.
- Implemented security hardening practices, routine backups, malware audits, and overall web security and site maintenance.
- Managed ad hoc website troubleshooting and debugging to rapidly fix technical issues and minimize website downtime.
- **2025 Service Excellence Award:** Recognized and awarded for outstanding performance during Q4.

Web Support Specialist: *February 2022 – February 2024*

- Developed and customized responsive web pages from design mockups using page builders (Elementor, WPBakery, Divi) and Advanced Custom Fields (ACF), ensuring fast page loading in mobile and desktop devices.
- Collaborated with cross-functional teams to implement on-site SEO change recommendations, resolved bugs and executed troubleshooting to maintain website performance and functionality.
- **Top Performer Award 2022:** Recognized and awarded for outstanding performance for the year.

Whitelabel Services 2014 Inc.

Web Developer: *June 2017 – July 2020*

- Implemented website fixes and technical SEO improvements using HTML, CSS, and WordPress, including page speed optimization, Accelerated Mobile Pages (AMP), and on-page optimization.
- Developed and optimized landing pages based on client requirements and SEO guidelines.
- Reviewed website audit and summary reports, identified the required fixes, and prepared quotations for website improvements.
- Trained new Web Development team members on website optimization processes, SEO guidelines, and workflows.
- Collaborated with cross-functional teams to coordinate website requirements to achieve client needs and expectations.
- **Office Network Migration:** Planned and organized the company's computer network during the migration to the new office, resulting in smooth relocation.

SELC-Global Center Philippines Corporation

IT Support Staff: *September 2016 – March 2017*

- Monitored and ensured that the computers, printers, networks, CCTV, and other peripherals were in good condition.
- Provided technical support to colleagues and students, troubleshooting hardware, software, and other IT-related issues.
- Uploaded and managed videos, documents, and images on the company website.
- Performed computer hardware and software troubleshooting, maintenance, and repairs.
- Performed regular data backups to protect important files and minimize the risk of data loss.
- Managed inventory of computers, peripherals, and IT equipment.
- Created and designed employee and student identification cards.
- Planned and performed IT equipment maintenance and upgrades.
- **Automated Backup Server:** Implemented a daily automated backup system to protect important employee files and data to reduce the risk of data loss.

Synergy Sales International Corporation

Management Information System Staff: *March 2015 – February 2016*

- Maintained and monitored computer hardware, software, and IT equipment to ensure reliable operation.
- Responsible for computer software and hardware maintenance.
- Installed and configured hardware and software, including VPN and remote desktop applications.
- Troubleshot user-reported issues involving computers, printers, networks, hardware, and software across 11 branches.
- Installed and maintained CCTV surveillance systems, including cameras and DVRs.
- Managed the purchasing of computer hardware and software and performed regular data backups.
- **MIS Equipment Inventory:** Created and organized an inventory system for MIS equipment.
